BOONE IOWA SOCIETY OF SOUTHERN CALIFORNIA (1914 - 2014)

The people who knew our founder, Mayme Howeth, who was prominent throughout the years in the Society, said she always present and made herself known by her jovial spicy sayings and cheerful greetings. They said that even advanced years did not dampen her spirit and proud admiration and affection for the Society she helped to form in 1914. Life is always more exciting and meaningful if a person has a goal and Mayme Howeth's great wish was to have the Boone Iowa Society perpetuate itself and to this purpose she gave actively and loyally until her demise in 1968.

As with her demise and her dream another door will silently close this year with the last meeting of the Boone Iowa Society of Southern California. I think we can speak for all the people who have attended the annual luncheons and like Mayme Howeth, we also love our home town of Boone, Iowa, the people from there and the warmth and happiness of the yearly meetings. We will miss the Society.
